## THR: 'Grad School Cut Is Alice in Wonderland'

### PARKING EDITORIAL

## All But Two Think Something's Wrong

Of the 299 students responding to the MONTCLARION parking and security petition thru Wednesday, two felt that there was nothing wrong with the current parking situation. One of the two commented that "I am of the silent minority." The other remarked that "My opinion is not valid. I am a Montclair reject."

The MONTCLARION published an editorial last week calling for student reaction to the current parking and security situation. Students were asked to return a coupon identical to the one elsewhere on this page.

Of the 299 returned coupons, 252 thought that the "mudflats" between Finley Hall and the fine arts building remain open at least, until the end of the semester. Paving the gravel lots was advocated by 29 MSCers.

Improvement of the road between Webster Hall and the music building was checked by 262 students. A more regular patrolling of the campus by security guards was called for by 247 responding. Adequate lighting in the Webster Hall lot and the quarry was requested by 262 students, and pothole-filling around campus was endorsed by 286.

Actually, the response might have been much larger — but one of the boxes in which students placed their coupons was missing when the boxes were collected Wednesday morning.

Various suggestions were voiced by those responding. Elimination of faculty spaces was recommended by 78 students. Improvement of security, improved snow removal, transportation to the quarry and elimination of parking tickets also received moderate support.

And, of course, the humorous — but potentially serious — responses came in. One student suggested to "throw Benitz in the quarry." SGA President Thomas Benitz — a dorm student — is one of three regular student members of the all-college parking committee.

One student wrote to us that he was lost in a pothole. Another suggested auction of

### HARRY'S 1000th

MSC hoopster captain Harry James 1000th varsity point is immortalized by the MONTCLARION's solarization technique. But — the Indians lost to Fairleigh Dickinson 55-50.

parking spaces to the highest bidder. Still another merely pleaded: "Do something!"

When we feel that the MONTCLARION has received sufficient answers to the petition, we'll attempt to meet the parking committee and get some of your problems solved.

Once more, you can help. If you didn't fill out the form last week, it's published again, here on the front page. Check off what you think is right or wrong and drop it in one of the boxes marked "MONTCLARION petition" scattered around campus.

By M. J. Smith

Master Plan Correspondent

"It may seem like Alice in Wonderland but our graduate school may be terminated in six months" said Dr. Thomas H. Richardson, MSC President, at a faculty meeting held Tuesday.

Discussion of Phase Two of the state board of Higher Education's Master Plan was the major topic at the meeting. Phase Two proposes, among other items, that all existing state college graduate programs be eliminated and a Graduate University of New Jersey be formed. It also suggests a 7500-student maximum enrollment at each state college.

The Master Plan's Phase Two has received strong criticism from New Jersey educators. In order to involve the faculty, a panel of Montclair State VIP's who have researched into the background of the plan presented their statements at the meeting.

Dr. Walter Heilbronner, MSC Vice-President for Instruction, deplored the idea that state college faculties were asked to develop concrete suggestions on the Master Plan in four weeks, when the Board of Higher Education has had three years.

"There is no rational explanation — indeed, no explanation at all — for the 7500 enrollment ceiling," he added. Also, Heilbronner pointed out that the data used in the report was compiled in 1968, altho more recent figures were available.

Commenting on what is seen by many as an arbitrary maximum enrollment figure, Heilbronner said, "It takes \$3161 to create space for a new student at an existing college and \$7500 at a new college. Perhaps they just dropped the dollar sign and made that the enrollment goal. Anything is possible."

Furthermore, he stated that the document was drawn up by the board's planning committee,

which is staffed only by one professional educator, who had little experience in planning.

Also, Heilbronner said that the only study of an existing cooperative university (similar to the proposed Graduate University) made by the board was a 1½-hour interview with the president of City College of New York.

"The plan was conceived in a spirit of contempt for everything the state colleges stand for," stated James Pettegrove, English professor and representative for the faculty. "It is ingeniously contrived to stamp out individualism."

Don Pendley, MONTCLARION Editor-in-chief, represented student opinion on the panel. The junior English major said that, since the plan called for a high level of specialization in only several fields in each state college courses in non-specialized fields will be limited in number and faculty quality. "This would gravely affect the general education and liberal arts aspects of student course selection," Pendley said.

Dr. Houston G. Elam, Dean of the School of Applied Arts and Sciences, went on to explain the deficiencies in the plan. "There is one footnote which modifies the enrollment ceiling — Jersey City may not get that large."

Elam pointed out that there are no quotes, sources, no bibliography and no appendix in the 148-page paper.

In conclusion, Elam commented, "However, if we don't do something, we're going to end up with GUNJ. You know, Graduate University of New Jersey — GUNJ."

Yes, I'd like to voice my opinion on the traffic situation at Montclair State to the MONTCLARION and the campus bigwigs who make the decisions.

- ☐ I find nothing wrong with the current parking situation.
- ☐ I think that the "mudflats" should remain open, at least until the close of the semester.
- ☐ I think the road leading from the music building to Webster Hall should be paved or improved.
- ☐ I think the security guards should be patrolling the campus on a more regular basis than they are now.
- ☐ I think adequate lighting should be installed in the lot behind Webster Hall and the quarry.
- ☐ I think potholes thruout the campus should be filled and repaired.

OTHER SUGGESTIONS: .....

The "MONTCLARION traffic petition" boxes are located in the:

College Hall main lounge  
fine arts building lounge  
Mallory Hall lounge  
temporary union building

Patridge Hall first floor lounge  
student life building, outside fishbowl  
and in the Memorial auditorium lobby.

## Coordinates Schools

## Faculty Evaluation Ready Next Year

ROBERT WATSON  
Two Plans.

By Jo-Ellen Scudese  
Staff Writer

Faculty evaluation by students is presently being worked out and should be ready for practical use in selecting courses for the spring semester of 1972, said Robert Watson, SGA vice-president for academic affairs.

Watson said there are two plans for evaluation. The SGA-sponsored plan involves a broadly comprehensive evaluation containing 26 multiple-choice questions which could be applied to all schools. At

present, the form to be used is based on a similar form used by Seton Hall University entitled "The Purdue Rating Scale for Instructors." Watson said at the moment this form seemed to be the most efficient but that he hoped eventually Montclair State could develop its own.

The second plan involves the various departments of each school. A letter was sent out by Watson requesting the cooperation of the school departments in a more in-depth and specific evaluation to help insure objectivity, comprehensiveness and efficiency.

In this plan each department would sponsor its own evaluation of faculty by the students of that department. There would be no standard form, so that the format would be left up to the discretion of each department. In this way, the Purdue rating scale could cover courses in a general way, while the departmental evaluations could give a more intelligent analysis of specifics which would be indispensable to a major in that field.

For instance, under the Pur-

due plan, a music professor might be rated overall as "good" (with a few basic points of substantiation mentioned). Under the individual department plans, the same professor may be rated as "excellent" particularly in music theory or the cello. The information from the Purdue form would be helpful to a non-major who just cares about a overall rating but the department evaluation would be very helpful specifically to the music major.

The SGA-sponsored questionnaire is scheduled to be available to students in late April or early May. The information will be compiled over the summer and the results will be available sometime around Oct. 15, 1971. Watson said the cost for research, operation and publication of the evaluation hopefully will come from the student activity fee. "Since there was no way of realizing the evaluation in this year's budget, no funds have been set aside," he said. This could present some financial problems but with the MSC computer center able to score and process the reports, SGA

can save some \$4000.

The department evaluations, beside being set up by the departments, will also be scored and processed by them. The final department reports will be maintained and made available in each department to students requesting information.

The most important aspect of the entire projected plan is the coordination of the SGA plan with those of the departments. Watson stated, "It is essential that the schools provide coordination to have as effective coverage as possible. In this way, MSC would have the most ef-

fective evaluation program of any which are in existence on other campuses."

Both factions would be aware of what's being done on both levels and this would help insure consistency. Also the cooperation of the schools with SGA would provide a channel thru which students who have worked with evaluations before can use their experience.

The evaluations will also be helpful to the faculty. Watson described them as being "intelligent student feedback by which they (faculty) may gauge themselves in the classroom."

## News Desk

## • African Exhibit scheduled

MSC's anthropology department will sponsor an EXHIBIT OF AFRICAN artifacts in the museum located in College Hall, room 308. The pieces, principally Ghanaian in origin, have been donated to the museum for the month of March. The museum hours are Mon., 1 p.m. to 4 p.m.; Wed., 10 a.m. to 1 p.m.; and Fri., 10 a.m. to 2 p.m.

The first in a series of MINI-REPERTORY THEATER productions will take place on Wed., March 17 in the studio theater at 2 p.m. Each member of the directing class will present a series of plays, using the other class members as actors. The directors for this session include Joe Black, Maurice Moran, Carolee Palmiotto, Diane Pisano and Mary Trella. The cuttings from the plays vary from the serious to the farcical, focusing this week on contemporary dramas. The five scenes will run approximately one hour.

The New Jersey Symphony Orchestra will present a concert in Memorial auditorium on Thurs., March 25 at noon. Two MSC students, selected in audition by symphony conductor Henry Lewis, will perform as soloists. The students are JACK OLIVA of Nutley and MARCIA SAXE of Clifton.

The Council of International and National Affairs will sponsor a delegation representing the

Netherlands to the annual NATIONAL MODEL UNITED NATIONS conference. The NMUN will meet from Mon., April 28 to Sun., May 2 in the Statler Hilton in New York City. Delegates will be selected on the basis of interest in the United Nations and a willingness to undertake a serious study of UN functions and the nation to be represented. Each delegate will be required to attend a series of meetings to be scheduled on campus in preparation for the NMUN. Interested students should contact the United Nations Chairmen of the Council on International and National Affairs, lower floor, College Hall by Fri., March 5.

The Montclair State College Media Center is presenting Sir Kenneth Clarke's "CIVILIZATION," the highly-acclaimed tv series which traces intellectual development from the fall of Rome to modern times. Each week one of the hour-long films in the 13-week series is shown 12 times in the fine arts auditorium. The schedule is as follows: Mon. at noon, 5 p.m. and 7 p.m.; Tues. at 4 p.m. and 7 p.m.; Wed. at 1 p.m., 4 p.m., and 7:30 p.m.; Thurs. at 2 p.m., 4 p.m. and 8:15 p.m.; and Fri. at 4 p.m. The presentation this week is "Protest and Communication."

## sga roundup/tuesday march 9

## REVIEW COMMITTEE

History department rep Bob Watson's bill for the establishment of the constitutional review committee to examine all Class I organizations was carried after discussion.

## CUM LOWERING

A bill submitted by Vic De Luca, history department rep proposing a campuswide ref-

erendum to change the required cumulative average of candidates for executive offices from 2.5 to 2.25, and for the SGA legislative position from 2.25 to 2.00, failed after discussion.

## BUDGET HEARINGS

A bill proposing that 1971-72 budget hearings be carried out at regularly scheduled meetings of the legislature failed after discussion. Tom

Hayes, physics-earth science representative, submitted the bill.

## SGA BUDGET PUBLICATION

A bill, sponsored by School of Mathematics and Science rep Richard Cahill, proposing that budget outlines be published and distributed to the student body at least three weeks before any action would be taken, passed after discussion.

## • mightier than the sword

With the recent increase of profanity on stage, screen and television, I have discovered there are only two dirty words left in my vocabulary: "Master" and "Plan." These may be and generally are, construed as one word. Between Dungheap's state Master Plan for Highest Education Phased Two (Killed Three, Stunned Seven) and Bourbon-Mahogony-Azoocheck's Master Plan for Montclair State (for which reason I walk farther to my car each day than I drive it home), I am fed up with everyone's else's Master Planning.

And what does one do when one is fed up? Political rule number three: Do It Yourself (I don't know what Political rule numbers one and two are yet, but I'm certain I'll figure it out by the end of the column).

Thus, I unveil the Pendley Master Plan For Doing What He Wants And To Hell With Everyone Else.

## SOUNDS GOOD

Sounds good, huh? Now, if only I can figure out what I want to do.

First, the MONTCLARION's going to open a branch office in Bimini. (Hey, that's political rule number one—Never consult the people that you're Master Planning over—or taking activities fees from, for that matter). With a parking lot right outside the building.

And then—my genie's getting impatient—I go down to Trenton and find Dungheap's office. It'll be easy enough...all that I've gotta do is look for the second biggest Cadillac in the city. Then I tell him if he and his Master Plan take away MSC's graduate programs, we'll refuse to pay our tuition. Then he can take the entire college away (Well, not all master plans are made of mice and men).

What next? Well, instead of the 4-1-4 calendar proposal or the 15-3-15 setup, the Pendley Master Plan will institute the 0-12-0 plan, which provides for 12 months per year of (a) independent study, (b) vacation. Choose one from A or B.

Then, the MONTCLARION's going to hire a competent editorial board. And then, I'm

going to spend 3/4 of the MONTCLARION budget on letters, telegrams and anything else that will get me a job on The New York Times. This just might include bringing two busloads of MSCers to the Times office to watch the editor at work—all on the MONTCLARION funds.

## KID STUFF

But all this is merely kid stuff. What really has to be done—instead of placing a 7500-student maximum limit on the size of the college—is that a 25-student maximum limit be placed on class size. A 200-car maximum limit be placed on the number of cars in a 100-car lot. Or even a three-month limit on the time between question and answer. Thus political rule number two—If They Don't Know What You're Doing, They Can't Hold You To It (I told you I'd figure out all three rules).

And next I'd get money for all the campus organizations that need it. They'd be able to provide all sorts of great activities for the students. And then I'd—

What? Huh? Where am I? Huh. Oh, really? I've been asleep for the last six paragraphs? My typewriter does have a numbing effect.

Yes—that's exactly what Montclair State needs. A place where one can sleep and dream and forget about the Master Plans—created by and for the Masters.

I'm gonna go back to sleep. It's much nicer there. Good night.

JOSEPH KLOZA  
Deeply Upset.

# Student Patrol Aiding in Campus Security Beef-Up

By Carla Capizzi  
Staff Writer

Campus security is being tightened in the wake of several attacks on Montclair State coeds.

Security chief Joseph Daly disclosed that a student patrol is

being organized as an added "deterrent" to crime at the college. About 20 young men will assist the security guards in policing the campus and issuing traffic summonses.

A FOREIGN student was the victim of the latest attack, in front of Mount Hebron

cemetery on the night of March 1. An unidentified young man grabbed her and tried to drag her into the cemetery. A passing car frightened the assailant away before he was able to harm her. Despite the girl's screams, several people waiting at a bus stop across the street made no move to help her.

The girl reported the incident to Joe Kloza, international and off-campus learning center director. He notified Daly, who in turn alerted the Montclair police.

Kloza said he was angered and deeply upset by the incident. "The girl came here because she had been told this was a land of freedom and opportunity," he said. According to Kloza, the girl was almost more upset by the apathy of those at the bus stop than by the attack itself.

"SHE WANTED to see how great America is," Kloza explained. "Now she realizes that this is the American way. People don't care — they don't want to get involved." He pointed out that the car which frightened away the attacker hadn't bothered to actually stop; it had just slowed down, probably out of curiosity. "The girl could have been killed, for all anybody cared," he said.

The coed described her assailant as between 5'4"-5'6", wearing a hooded brown parka and soccer sneakers. She was unable to see his face clearly.

The sketchiness of her des-

cription makes it difficult for the police to apprehend the attacker. Even if they did, Kloza feels, it would do little good. "The suspect would probably be acquitted for lack of evidence," he said. "It would just be her word against his."

SINCE THE attack occurred off-campus, there is little the college can do about it, according to Daly. He said the Montclair police are "aware there is a problem" and are increasing patrols in the campus area. He explained there have been sporadic attacks on women in the town, but the problem had only recently reached this area of Montclair.

He emphasized that campus security is doing "everything within power and reason" to provide protection for students. According to Daly, the 24-man force polices the campus in three shifts, 24 hours a day, seven days a week. Because Daly believes in the "element of surprise," the patrols are not run on a set schedule.

Daly feels the new student patrol will be a valuable asset to the force, which he admits is "vulnerable." The students, under the direction of fellow students Richard Huckel and James Kearney, will patrol from 10 a.m. to 8 p.m., hopefully seven days a week. Their duties will be confined to "observing and reporting" to Daly and issuing summonses. The force should be in operation in about two weeks.

## Form Group

# Grad Students Defy Extinction

Despite a threat of extinction due to Phase Two of the Higher Education Master Plan, approximately 50 Montclair State graduate students passed a constitution forming the Graduate Student Organization at a March 9 meeting.

The GSO constitution was drafted by an interim committee organized last May. According to the constitution, the GSO is designed to act as a representative body for MSC's approximately 4500 graduate students. It will also handle social and cultural activities and promote programs for the benefit of the graduate student and the college.

THE IMMEDIATE concern of the GSO is Phase Two of the Master Plan, which would consolidate all graduate programs existing at individual state colleges into one Graduate University of New Jersey. Under this setup, MSC's facilities and faculty would still be utilized, but the college itself would have no control over the program.

Dr. Howard Fox, GSO adviser, termed the proposed graduate university a "paper organization." MSC President Thomas H. Richardson called

the proposal "unacceptable, unbelievable and indefensible." he said that if the plan were adopted, MSC would phase out its graduate school and concentrate exclusively on the undergraduate program. Richardson also expressed concern that degrees already granted by MSC's graduate division might lose their value.

According to Mrs. Grace Smith, a graduate student and chairman of the GSO's interim committee, last May's strike triggered the organization of MSC's graduate students. She pointed out that graduate students had no vote in the decision to close the school, and as a result, decided to take action that would enable them to be a part of the campus decision-making process.

THE INTERIM committee will continue in charge of the GSO until a governing board can be selected. The governing board will be made up of two representatives from each graduate school and six representatives from the college at large. It, in turn, will elect the GSO officers.

The next scheduled GSO meeting is April 28, for the ratification of the Constitution.

## College Leaders Knock Phase Two at Open Meet

By M.J. Smith  
Master Plan Correspondent

NEWARK — Creation of a state-wide Graduate University of New Jersey came under fire at the second public hearing of Phase Two of the New Jersey Master Plan for Higher Education.

The proposed Graduate University would eliminate existing graduate programs at all state colleges and all campuses of Rutgers University except New Brunswick. Instead, certain graduate programs would be offered at certain colleges, and faculty members concerned would teach part time at a state undergraduate college and part time at the graduate university.

The hearings were held at the Federal building, here, last week.

DR. WILLIAM HAZELL, Newark College of Engineering president, testified that the plan "proposes amputation of a limb to cure a bad case of acid indigestion." Hazell urged much more thought and consideration.

Montclair State Vice-President for Instruction Dr. Walter Heilbronner, said that there was "a lack of consistency and research in the (Phase Two) paper." He asked that the paper be rewritten by a different group, claiming that "only then will there be a high level of confidence (in the

plan). Heilbronner was allowed to speak after being questioned by Mrs. Katherine Neuberger, state Higher Education board member and hearing chairman. Mrs. Neuberger asked Heilbronner if his testimony was "any different than

Heilbronner:  
Plan  
Lacks  
Consistency

that of Dr. (Thomas H.) Richardson, the president of your college." Richardson had testified at hearings the previous day in Trenton. Heilbronner said he did not know what Richardson's testimony had been.

FOLLOWING HEILBRONNER'S comments, Mrs. Neuberger commented that she understood that Heilbronner had been in New Jersey "only since September."

"August," Heilbronner answered.

After the hearings had recessed for lunch, Heilbronner said that he was sure that Mrs. Neuberger had attempted to discredit his testimony by her comments. Mrs. Neuberger resigned from MSC's Board of Trustees

last December to accept her position on the state board.

Only one collegiate representative, Monsignor Thomas Fahy, Seton Hall University president, approved the formation of the graduate university under a central board in Newark, stating that "it avoids waste and duplication." However, he later admitted that he had not given any detailed thought as to how the university would be operated. Seton Hall, an independent university, would not be included in the proposed graduate university.

PHASE TWO of the state's master plan is a projection formulated by Dr. Bruce Robertson, state master planning director. Besides the graduate university, the document also proposes a ceiling of 7500 students as the maximum enrollment at each state college. The plan, a continuation of an earlier document, sets details for the growth of higher education in New Jersey.

Also expressing their general disapproval at the hearing were: Dr. William Frazell, acting graduate chairman at the New Jersey College of Medicine and Dentistry, Newark; Dr. Richard Schlatter, acting Rutgers/Newark president; and George T. Potter, Ramapo College of New Jersey president. Ramapo College is scheduled to open in September.

## SST Fight Comes to Campus Conservation Club Says Aircraft Is A Hazard to Environment

By Cecelia Fecho  
Staff Writer

Continuing protests on the part of conservationists against the proposed Supersonic Transport (SST) aircraft have been questioning whether an agency should be permitted to complete a project if it is potentially dangerous to humanity. And the anti-SST fight has a Montclair State battleground.

According to Frank S. Kelland, adviser to the Montclair State Conservation Club, the SST, designed to provide faster-than-sound transportation will have "a tragic effect upon our environment."

A spokesman for the Sierra

Club, a nationwide conservation organization, claims that "a fleet of 500 of these aircraft would consume the nation's petroleum supplies within 20 years."

KELLAND ADDED that the SST "will upset the chemical balance within the earth's hemisphere, and the increased air pollution it would cause would result in climatic changes in many areas."

Mrs. Vera Brenton, Conservation Club secretary, expressed concern over the effect the SST would have on marine life, in view of the fact that it would handle extensive overseas transportation.

Kelland considers the SST to

be a "poor investment" for the taxpayer. He believes the existing commercial aircraft in the United States is not being utilized to the fullest extent, and money for the SST would be better spent on surface transportation improvement throughout the country.

WHETHER OR not the SST will be completed depends largely upon a House-Senate committee formed to investigate the project. The committee had agreed governmental spending on the aircraft should not exceed \$210 million. This estimate has risen, however, and the final cost could reach the \$3 billion mark, Kelland said.

## Reporter Returns to High School

## Changes a Bit

## 'Uncatholic' at Roselle High

Roselle Catholic Boys Regional High School was only five years old when I entered in 1963. There was an old orphanage on the ground which was used as a Library. We had to change for gym in a classroom. The "charm" of our school was that it was all-boys (at our age, who liked girls?) and nearly 75% of its graduates had gone to college (there had only been one senior class).

By the time I left, the orphanage was gone, we changed in a locker room and nearly 90% of the graduating classes had gone to college. We had seen three principals in four years and it seemed as if 50% of the faculty disappeared each year.

Today, nearly four years later, the scene is much different. There are many obvious, superficial changes... such as the everpresent WRFM music gently lilting as you sway thru the halls and offices. There is a jukebox in the cafeteria offering the latest in hits, replacing the "muzak" offerings of my days. The concrete walls of the offices are hidden now by walnut paneling. Many of the Marist brothers (the religious order in charge of the school) no longer traipse the halls in their gown-like cassocks, the "external symbol of their Christian commitment," and memorable collar design.

The student as "necessary evil," an attitude that pervades many academic atmospheres, does not prevail. Instead, students are involved in academic and social change. Reflecting the times, there are now committees on the environment, on social action and a club whose sole purpose is to view "meaningful" films. An interesting sidelight of the academic year is the "powder puff" football game between RCHS and the girls of Mother Seton, an all-girls Catholic high in Clark.

Limited to senior smoking privileges and a senior prom, things now accepted as a matter of course, our student council was largely ineffectual. Today, student opinion is valued in cur-

By

Moran Jr.**

riculum changes and students were committee members in the recent Middle State evaluation.

Middle States evaluation was something of an impossible dream when I was in high school. Today, with the building celebrating its 10th year in September, it has become a reality. "Stability is the key," commented Bro. Stephen Martin, principal for four years. "We have a much more stable faculty and a growing curriculum."

Growing is an understatement. In 1966, upon entering senior year, my dislike for math drove me to the only innovative course offering: "The United

## Long Hair vs. Short Hair

... two Marist brothers discuss the problem

States and its International Relations," a course, taught by Franklyn Bauer, that became a valuable resource in my understanding of foreign policy.

Today, the senior is given several choices: "Data processing" (altho the course lacks a computer), "Sociology," "Business Law," "Accounting," "Modern Literature," "Journalism" and an overview of the humanities. Another addition, a sorely missed course when I got my driver's license, is "Behind the Wheel Driver's Education."

The religion course, which I dishonorably failed once in my sophomore year, has undergone drastic alterations. Now the junior and senior, while still concerned with love, faith "and other corn" (according to one senior), have delved into the philosophies of Nietzsche, Camus, Satre, Freud and Jung.

"Next year we would like to try an interdisciplinary approach," said Bauer. "Perhaps in social science, we could study Russian history and Solzhentyn's novels from a philosophic and literary point of

view, all in the same class."

Independent study may also be the wave of the future, according to Bro. Martin. Stephen Beach, senior "guinea pig" for the project, is working on a comparison of solitude and

Some things never change. The most recent issue of The Lion, the school paper, reported the controversy over hair-length. "Last year," commented the principal, "there was no regulation. But parental

'... nearly four years later, the scene is different. There are many obvious, Superficial Changes... Many of the Marist brothers no longer traipse the halls in cassocks...'

love in psychology and literature. He reads Camus, Buber, Fromm and several novelists.

"I don't know how scholarly it is," he says "but I keep reading."

He only attends school once or twice a week, using most of his time for reading and writing. He looks forward to a seminar in educational philosophy and showing his videotape of a play

pressure and an outrageous situation made us revert to some rules." Students are allowed sideburns to the bottom of the ear and hair no longer than their shirt collar. This and a regulation on ties — albeit no jackets — has the newspaper editors crying for "the rights of individual freedom."

Ah, sweet bird of youth, if you only knew.

## College Papers

## On Hot Seat for Abort Ads

The publishing of advertisements in campus newspapers for abortion referral services has caused almost as much controversy as the services themselves.

Student newspapers on at least eight campuses have come under fire for accepting advertising for abortion counseling and referral.

Joseph L. Knutson, president of Concordia College, Minnesota, has suspended The Concordian and dismissed the paper's editor, Omar Olson.

Augsburg College, Minnesota, suspended the mailing of an issue of its student paper, The Echo, fearing that an abortion advertisement might be illegal.

The Student Voice at River Falls State University, Wisconsin, was ordered by the administration not to print advertise-

ments for abortions and contraceptive counseling.

The Index at Niagara University, a Catholic institution, Niagara Falls, N.Y., has been reprimanded for running an abortion advertisement.

### ADS CONTINUED

The regents of the University of Georgia and the trustees of Ohio University have considered taking action against student newspapers for running similar advertising.

In both cases, the decision was left to the student editors, and both papers continued to run the advertisements. However, the Ohio University Post, in its editorial columns, has cautioned its readers that the abortion referral services are

expensive and that free counseling is available elsewhere.

The abortion referral services, which use campus newspapers extensively for their advertising campaigns, arrange legal abortions in New York state. Their fees go to well over \$100 for the referral service alone, not including medical costs.

New York is studying the question of whether the operation of the profit-making referral agencies should be regulated by law.

Some editors of student newspapers are awaiting opinions from states' attorneys on whether advertisements for the services are legal in states where abortions are illegal. Editors in Connecticut, Minnesota and South Dakota have stopped running the ads, pending decisions.

Student editors report that most of the controversy surrounding their publishing the ads stems from legal questions, altho some say moral considerations are also involved.

—Chronicle of Higher Education.

Editor's Note: This is a second in a series showing changes at local high schools. Next week, Pat O'Dea returns to an all-girls Catholic high, Maurice J. Moran, Jr. is currently assignment editor for the MONTCLARION. He has served as managing editor and staff writer for the paper during his four years at Montclair State. He appears in the current edition of "Who's Who Among Students at U.S. Colleges."

## PART TWO

# Frats Should Change or Die

Are campus fraternities worth saving? Many of the nation's Greek leaders have serious doubts.

Potential members cite the lack of real purpose in the social-fraternity concept pointing out obnoxious pledging schemes and lack of any concrete goals. Frats are caught in the currently tight money squeeze and as a result are losing members.

Jim Saxon

At Montclair State, fraternal leader James Saxon has pointed out that the centuries-old Greek concept is nearing death. And one Newark College of Engineering leader pointed out many of their fraternal organizations have been just existing in name only.

The question now is change or die. Many frats have faded into mere form for the purpose of maintaining a name or a frat house or participating in some event. This obviously has been unattractive to potential members.

The Greek social concept obviously has not been keeping pace with the needs of today's students. This, in our view, is why frats may not survive.

A revitalization process is, without a doubt, necessary. The frat concept in the past has been a vital symbol to countless college students. But changes must be made to make frats attractive to students.

\* First, the frats should become more involved in campus problems. Not one Montclair State fraternity has ever spoken out on issues confronting students. Social awareness is lacking. As a result, frats are presently useless to the campus.

\* Second, the hazardous and obnoxious hazing practices should be abolished or reformed. What purpose does it serve for students to be blindfolded and dumped off somewhere in South Jersey as part of some frat ritual? There is an obvious lack of respect for human dignity when frats have pledges engage in uselessly degrading activity.

\* Thirdly, frats should develop and maintain standards appropriate to a modern college. They should work cooperatively in social projects. And they should avoid subtle racial or ethnic practices which may favor one group over another.

We believe these steps are absolutely necessary should the fraternity leaders want their organizations to survive the decade.

*'If You Make It, It'll  
Be Worth Something by 1972!*

## Reportage

# Changing Prisons

By M. J. Smith  
Staff Writer

No doubt, the purpose and effectiveness of the Campus Community Scholar Program has been and will continue to be a hot topic for debate. However, one course in this program is, without question, worthy of academic respect and, perhaps even admiration.

Smith

"Crime and Punishment" is another MSC innovation. For the first time on any U.S. campus, exconvicts will be lecturing on a regular basis. Members of the New York chapter of The Fortune Society, will present the truth about the American penal system as they have experienced it.

David Rothberg, executive secretary of the society, said at the first class, "Prison reform has replaced ecology as this week's chic issue."

The cover story on Time magazine, several documentaries on tv and the rising popularity of prison literature among the young are all indications of America's growing concern for the inmates of its prisons.

It has been said (by George Wallace, as a matter of fact) that the prison system won't change until the caliber of its occupants change.

Well, the occupants are changing — and changing rapidly. Young men convicted of draft evasion, college students arrested on drug charges — they are all there.

## SOCIETAL 'DREGS'

The sons and daughters of American society are being thrown in the same cell with inmates doing five to nine years for assault and battery. They are now being forced to live with human beings that have previously been referred to as "the dregs of society."

Suddenly the penal system has become a heavy weight on the American conscience. Something must be done and just sending random letters to the governor aren't going to be enough.

Prisons and prison reform are a part of the unpleasant reality of modern life just as a polluted environment, the war in Indochina and racial inequality are.

This is the value of the CCSP course. A small, action-oriented seminar that is designed to let MSC students learn something about an environment that most of them know little or nothing about.

## Campus Whirl

# Benitz OKs 'Unknown' for SGA VP Post

The Benitz administration has picked a relatively unknown man to fill the posh political post of vice-president for external affairs. He's William Asdal (son of Mrs. Doris Asdal, head of MSC's Faculty — Student Cooperative Association), sophomore industrial arts major and SGA IA representative for less than two months. Asdal is a good-looking, sandy-haired conservative who came to the attention of his SGA benefactors thru membership in Senate.

Kloza

Bellagamba

Asdal told Campus Whirl that he's been "running around like mad" in attempt to find out what his new-found responsibilities will be. Since November, Robert Watson manned the post and also unofficially covered as vice-president for academic affairs when Sorel Luhrs left. Now in an SGA approved switcheroo Robert has assumed the post of vice-president for academic affairs, by virtue of his past accomplishments — namely, faculty evaluations.

Observers see this cabinet shakeup as Benitz's last-ditch effort to beef up his administration before new elections are called. Asdal has been called a "popular, well-liked figure" by the few who know him and Watson, "the brains behind Benitz."

\*\*\*

**BITS & PIECES: RALPH SILAS**, SGA business department representative for the past year, considering running for vice-presidential post... **PRESIDENT THOMAS RICHARDSON** was considering teaching a CCSP course but changed his mind because of time... **NEW YORK TIMES** considered doing a story about MSC but changed its mind... **JOSEPH KLOZA** issue settled... Reasons why **DR. LAWRENCE BELLAGAMBA** resigned still unclear... **QUARRY** all light up...

Campus Whirl appears weekly in the MONTCLARION. The items contained herein are researched and edited by the newspaper's editorial staff.

## Montclarion Soapbox

### SST Poses Big Ecological Hazard

To The Editor:

Approved by the House and voted against by the Senate, the \$290 million appropriation bill for the supersonic transport went into a joint House-Senate conference. Conferees then reported out a \$210 million bill. Foes of the plane threatened a Senate filibuster, and a compromise was reached whereby the plane will be funded until March 30. The House and Senate will then have the opportunity to consider the appropriation separately from the Transportation Department bill, of which it is a part. In the original vote on the SST, both New Jersey senators voted against the plane. So did all congressmen, with the exception of Rep. Charles Sandman (R-2nd Dist.) and Rep. Dominick Daniels (D-14th Dist.). It is not too late to let them know of your displeasure.

Conservationists have consistently opposed the SST as an extreme environmental hazard.

IT'S VERY POSSIBLE THAT THE ARGUMENT OVER THE SUPERSONIC TRANSPORT...

...MIGHT CAUSE MORE NOISE POLLUTION...

...THAN THE AIRCRAFT ITSELF!

Since it will fly in the stratosphere, a part of the atmosphere where there is little vertical movement, the pollutants the plane releases will accumulate — probably blocking out sunlight and causing a "global gloom." The noise produced by the planes will be deafening — one SST sounding like 50 jumbo jets at take-off. If the plane ever reaches full speed, it will create ear-shattering sonic booms. In addition, one airline executive has testified that the SST does not meet a genuine market demand, and that the airlines are not ready for it. Under Secretary of Transportation James Beggs testified that the government may have to spend \$1 billion before the planes are finally built. That's a lot of tax dollars for an environmental hazard.

If anyone is interested in campaigning against the SST, please leave your name with Prof. Frank Kelland, Annex Two, Room five. Any assistance will be greatly welcomed.

Conservation Club.

## J. D. Hile at Large

### Less Control by Feds

Revenue sharing is an innovative plan designed to decentralize the federal government. President Richard M. Nixon proposes to release \$5 billion of federal aid to states and cities free of controls.

States are in need of financial support. For example, New York must raise taxes to meet growing expenses. Under revenue sharing Gov. Nelson Rockefeller believes such hikes would not be necessary.

New Jersey has a budget of \$1.8 billion. This, according to

Rocco Campi, a state budget analyst, will generate a \$14 million surplus. He considers this "lucky" when compared to other states such as Pennsylvania, which face financial crisis. However, when questioned on the possibility of future tax increases, he preferred not to comment.

The state stands to gain over \$153 million from revenue sharing. Of this amount \$52 million will be allocated to cities. This will help fill their empty coffers.

#### CAHILL STAUNCH SUPPORTER

Gov. Cahill is a staunch supporter of the plan. He states: "Failure to adopt the Nixon proposal will only lead to financial chaos for the cities of the nation."

Altho support of the proposal is widespread among the governors and mayors, Congress is another matter. To be specific, Rep. Wilbur Mills (D-Ark.) vows to destroy the plan before it leaves committee.

As chairman of the powerful House Ways and Means Committee, Mills objects to giving funds free of controls. He believes that state and local governments have not progressed past the Boss Tweed era of corruption, thus making revenue sharing wasteful. Such opposition limits hope that the proposal will reach Congress for a vote.

Financial chaos will occur if revenue sharing fails to pass. States and cities will be forced to implement taxes to create revenues which could have come from Washington.

This will be bad news to the already overburdened taxpayer.

It is tragic when one man can block a plan which is essential to the welfare of the nation. Revenue sharing would have been the first step of returning to the people some of the billions which are poured into the massive federal bureaucracy.

Hile

## Richard Insley

### Trying to Understand RMN

Sometimes it is difficult to believe that President Richard M. Nixon is seeing the same world as the rest of us. Certainly his press conference last week does not deal with the war which I have been reading about.

Like some kind of macabre puppet, Nixon spoke of the operation which produced a six-month high in U.S. troop deaths and a two-year high in South Vietnamese troop deaths as "successful in reducing casualties." Nixon insists that the

Insley

spreading of the war ever further represents sincere attempts to get out of Southeast Asia. If only the North Vietnamese wouldn't act in bad faith we'd be out already.

Apart from the obvious nonsense of saying that spreading the war is getting us out and that having more people killed reduces casualties, Nixon noted a couple of interesting and frightening things about future plans.

#### HOW HE DOES IT

First, when we asked if we would support a South Vietnamese invasion of the north, (instead of denying it as he had before) Nixon only said that there were no plans for such

action. This appears to be a significant difference. This is the way Nixon gets us ready for new outrages. Secondly, Nixon stated that we would keep troops in Vietnam as long as the enemy held Americans prisoner there. He made this statement knowing that the North Vietnamese and the National Liberation Front have made U.S. withdrawal a condition for release of all prisoners.

Thus, we don't leave until the prisoners are released and the prisoners aren't released until we leave. In short, we stay forever.

#### WATCHING TESTIMONY

Those really concerned by the treatment of prisoners would

Richard M. Nixon  
*frightening plans?*

do well to learn about the Winter Soldier testimony recently held, where dozens of American Viet Nam vets told about atrocities which they had witnessed and participated in. Altho the proceedings were almost entirely ignored by the media, the information which did get out should be enough to make Americans think twice before getting indignant over what the enemy is doing.

Our actions and policies in Viet Nam have been and continue to be inhuman and we have created the atmosphere in which our captured servicemen must suffer. If we want truly to help them we must act to change that atmosphere.

#### GENTS ONLY

CHICAGO (UPI) — About 1500 youths marched out of all-male Lane Technical High School Tuesday and marched or rode to the Chicago Board of Education building because they don't want girls in the school next year.

\*\*\*

#### BELIEF IN YOUTH

Former federal Judge G. Harold Carswell, after his son Scott Simmons Carswell, 20, was arrested for possession of marijuana:

"He did not have any possession of anything of that nature. What I'm saying is what the boy has told me, and I believe him."

#### EXTRA MASTER PLAN HEARING SET

Mrs. Katherine Neuberger, hearing chairman for Phase Two of the state Master Plan for Higher Education, announced late Wednesday that an additional master plan hearing would be held "for students only" on April 24 in Trenton, exact time and place to be named. The announcement was made at the third Master Plan hearing at Glassboro State College.

## 'Journey'

## Loneliness in a world of illusion

Scene from Ronald Ribman's "Journey of the Fifth Horse."

## 'Oh no, Nanette !'

## Ruby shines like rough gem

By Thomas Babbitt  
Staff reviewer

Ruby Keeler is the exception to the rule. She acts as if she were reciting the alphabet, she sings with blank uncertainty, and she dances as well as any third-year terpsichorean aspirant. But she is a star, and we all know that a star is a star regardless.

She sings exactly one song (well, almost) and dances but twice (well, maybe) in the innocuous revival of the 1925 musical comedy "No, No, Nanette." But Miss Keeler's irresistible charm and winsome appeal win us once again and we wholeheartedly forgive her mediocre (or unabashed lack of) talent. And who says Broadway has no magic?

However, I still maintain that what I saw at the 46th Street theater is available on any television variety show (i.e., emphasized and effortlessly conceived period dancing, low, broad humor and a flood of devastatingly ordinary tunes). The effort and expense of attending a Broadway show should offer a little more than "The Hollywood Palace," live.

## NOT MUCH FUN

"No, No, Nanette" isn't even really all that much fun, since we're conditioned to its brand of entertainment the way we're conditioned to commercials. The few real belly-laughs belong to Patsy Kelly as the eternal, overworked maid. The one truly

exciting musical moment comes when Helen Gallagher and the tuxedoed male chorus belt out the "Where-Have-My-Hubby-Gone-Blues." Bobby Van is slick and sleek, Susan Watson is pert and pretty, Jack Gilford is a schnook (what else?), and a trio of Mr. Gilford's innocently "kept" women provide for some cheap guffaws.

The staging and choreography are period, familiar and "I've-seen-it-all-before." The costumes and sets are lavish and colorful. But is a mere feast for your eyes worth the wallet-deflating 20 or 30 bucks a pair (and upward for scalpers and ticket agencies — remember, this show's a hit)?

Don't get me wrong — this is a highly professional show with

a splendid polish and top-notch talent in many departments, but so are most Broadway shows. Unless you are an avidly eccentric theater-buff for whom theater-going is a habit rather than an event (in which case a visit to this common fare is just another thing on your endless list), skip the potatoes, save your money, and savor the delicacies.

"Company" is emphatically at the Alvin, "1776" at the St. James, "Story Theater" the Ambassador. Watch for "Follies" at the Winter Garden. The 46th Street theater is merely a live and splashy late-night movie with an audience full of nostalgia-hungry octogenarians who can fondly remember seeing Louise Groody and Charles Winneger in the original.

Rubin and Joe Black as Pandalevski, there were more than enough moments of beautifully-sketched characterization to positively balance the scale.

Katherine McAteer as Katerina exhibited mature assurance and impressive poise in her role. Barbara Sholz once again brought professional flair to a role, as Chulkaturin's housekeeper Terentievna. Barbara Wasserman moved well as Liza.

Performances by Richard Nelson, Mary Jeanne Cullen and Betty Passafiume in their smaller roles were delightfully drawn from real life. The Feathers of Julia Indichova was a masterpiece of astute characterization.

## PROFESSIONAL QUALITY

Designer John Figola graced the stage of Memorial auditorium with a set of striking reverence to the theme of the play. Isolation, desolation and loneliness underlined imaginative scene changes in which there were some interesting uses of projection devices. Costumes of professional quality were designed by Virginia Chapman.

The work of Jerry Rockwood proved to be flawless. The direction was distinctly Rockwood while "Journey" remained distinctly Ribman with a mutual respect and understanding apparent throughout.

One question, however, remains unanswered. What are the responsibilities of the stage manager? The answer to this vital question may have eliminated many embarrassing moments for audience and performers alike in an otherwise dynamically directed and forcefully acted production.

Joan and her friends: Grechen Corbett stars and SmokeRise sings in "The Survival of St. Joan" at the Anderson Theatre.

## 'Joan of Arc'

## Rock survival at stake

By Hal Plain  
Staff reviewer

The new Medieval rock opera, "The Survival of St. Joan" at the Anderson Theatre, is one of the current wave of new theatricals which are seeking to entice the young generation back to the paying theater.

It is not an opera, despite what the promoters say, but it definitely is rock and good rock at that. The music is very fine and the acting is uniformly credible; not fantastic but good enough to enjoy.

The show, with book and lyrics by James Lineberger and music by Hank and Gary Ruffin is based on the premise that

Joan of Arc was not burned at the stake.

In this updated edition, Joan, adequately portrayed by Grechen Corbett, is freed by the church and placed in the care, actually the custody, of a deaf-mute shepherd who has just lost his wife. Richard Bright is the only real standout in the cast. As the shepherd, he does not say a word but his skill as an actor shines thru, as he falls in love with Joan.

## DRIVEN BY DESIRE

But the saint is driven by her desire to aid France, so she leaves the shepherd and his son to find out what is happening in the countryside. Here, Joan finds only misery and suffering,

most of which she has caused by the war she brought thru her visions.

The score, performed by SmokeRise is good solid rock with very intelligible lyrics. The volume does not overshadow the content. The music is so good in fact, that it can stand alone, the album of "Survival" should be a real hit.

The surrealistic sets, lighting and costumes were designed by Peter Harvey and Thomas Skelton. They are exceptionally good, and add much to the show.

This is not an opera and it is not traditional theater, but it is very good entertainment. "The survival of St. Joan" should survive for a long, comfortable engagement.

# MSC's Squaws Trounce Glassboro for N.J. Title

ATLANTIC CITY — Montclair State's women's basketball team, not content to let the men get all the glory, romped over Glassboro State, 62-40, for the New Jersey State Women's Basketball tournament held in Atlantic City High School.

More important than the win over the Profs, something that the men didn't find so easy this year, is the fact that the Squaws have notched a berth in the Middle Atlantic Women's Intercollegiate Basketball tournament slated for March 17, 18 and 19 at the University of Delaware.

MSC started the final game on the minus side as the Profs opened the scoring with a foul shot making the score, 1-0. But the Squaws countered with another basket and in the first few minutes, the score was knotted at 6-all.

At that point, MSC broke loose in the scoring and at the end of the first quarter led, 17-10.

The Profs, battling against MSC for the first time this

season, played a man to man defense which was not expected by the Squaws. Montclair adjusted to Glassboro and according to Coach Cathy Paskert their game plan "went beautifully against it."

Glassboro's team composed mostly of field hockey players who utilize a running game, didn't count on MSC's pick and roll which opened up the game and allowed the Indians to take advantage of the scoring opportunities. By the end of the half, MSC held a 35-19 lead, and GSC was completely out of the contest.

Freshman Mary Hayek ended the tilt with the game-high score of 16. Denise Wood trailed in the scoring with 13. Connie Doermann was the only Prof to hit in double figures, scoring 12.

Miss Paskert, extremely pleased on the outcome, stated that it was "one of the better games." She had great praise for Captain Joan Ficke and Karen Biscaha and noted that the two were greatly responsible for cutting off Glassboro's fastbreak.

## Bill Balogh's Tops In North Atlantics

NEW LONDON — Bill Balogh of Montclair State College captured the all-around event in the third annual North Atlantic Gymnastics championship held last Saturday at the United States Coast Guard Academy gym.

The talented junior turned in a score of 46.05 to best Milt Collins of Long Island University. Collins, who won two events, floor exercise and long

horse, posted a score of 44.10. Ed Kuhn of Montclair State placed fourth in the all-around event with a score of 41.25.

Balogh took the still rings event with a score of 16.05, placed third in side horse with a mark of 15.30 and fourth in the horizontal bar with a score of 14.65.

Kuhn was second in parallel bars with a score of 16.15 and fourth in the horizontal bar.

Montclair State placed third in the team standings with a score of 125.1 behind Long Island University at 134.81 and West Chester State at 130.30.

## Tau and the Fudge Top MSC Bowling

Both the Vanilla Fudge and the Tau Sigma Delta intamural bowling team swept 4 games last week to run their records to 12-0. Tau Sigma Delta is the leader of the National League, while Vanilla Fudge leads in the American League race.

Tau Sigma Delta crushed Linden Mansion 4-0 in an inter-league duel. Tom Farley and Paul Awramko led the winners with a series scores of 471 each. Nick Pizzulli was high for the losers with a 466 series. Linden Mansion record dropped to 0-12.

**VANILLA FUDGE** won by forfeit over Phi Sigma Epsilon, whose record dropped to 0-12.

Tau Lambda Beta whipped Snidely's Snappers 4-0. Larry Bishop was high for the winners with a 537 series. The losers overall record dropped to 5-7.

Alpha Sigma Mu "A" dropped to second place in the National League race by beating Zeta Epsilon Tau, 3-1. Rosco Gold led the winners with a high series score of 514. Zeta Epsilon Tau's season mark dropped to 1-11.

**GAMMA DELTA Chi** and Alpha Phi Omega deadlocked in a 2-2 tie. Jim Barry led the competing teams in both high game and high series with a 217 and 528, respectively.

Phi Lambda Pi ripped Lambda Chi Delta 3-1, behind the fine scores of George D'Esposito who had a 527 series and a 213 high game.

Alpha Sigma Mu "B" beat the Packers 4-0, behind the fine bowling of Joe Westervelt and Jim Dale who rolled a 509 and 503, respectively.

# MSC Fencers Cop Second NAIF Title

By Lynda Emery  
Sports writer

**BUFFALO, N.Y.** — For the second consecutive year, Montclair State College clinched the National Intercollegiate Fencing championships. With the exception of one fencer, Roger Marcegiano, the defending team, which registered 56 points, was identical to last year's winner which scored 52 points.

MSC's fencers also captured the Syracuse Trophy, given to the epee team that accumulates the most wins.

**WITH 19** points, Montclair came in first in the epee competition. Indian Bruce Kinter, the defending epee champion, placed third individually with a score of 4-3, so losing his title to Russ Fischer of Newark College of Engineering. Todd Boepple, who last year fenced foil, this year epee, came in fourth place with a record of 3-4.

Montclair also boasted an individual trophy as Dave Bryer, the 1968 sabre champion, topped the field with a score of 6-1, defeating defending champion George Soriano of NCE. Glen MacKay, also fencing sabre, came in sixth place with a score of 2-5. In the first round they brought MSC's sabre team to second place with a total of 17 points.

After defeating Nick Franzi of Rutgers, Indian Frank Mustilli placed second in the foil competition with a 5-2 record. Discouraged at having tied with Marc Volpe of Rutgers, who had

also scored 5-2, Mustilli lost the fence-off. He explained, "I just couldn't get up for the match."

MSC's Marcegiano was third in foil on most touches with a score of 4-3, after tying with Buffalo's Larry Singer.

In the first round of the epee competition Kinter placed first, going undefeated. Boepple won 8 bouts, while losing 3.

Marcegiano went undefeated in the first round of foil competition, winning all 1 bouts. Mustilli lost only 2 of his bouts. But despite the Indians's efforts, Rutgers took the foil trophy

with a lead of 1 bout.

**MAC KAY LOST** only 1 bout in the first round of sabre competition. Bryer lost 3.

MSC's coach Dean Cetrulo was unable to accompany the team to the championships, but a friend of the team, Vincent Surdi, went instead.

The six Indian fencers all qualified for the finals in the championships. They ended their season with a record of 13-0, which is, with the exception of the girls basketball team, the most outstanding Indian team record on campus.

**REIGNING CHAMPS:** MSC's undefeated fencing team (left to right, kneeling) Roger Marchegiano, Todd Boepple, Frank Mustilli, Dave Bryer; (standing) Bruce Kinter, Bob Smith, Carl Davis, Walt Halushka, Glenn McKay, and Alex Colatrella, return to MSC as North Atlantic fencing champs. In the meet, Bryer took first in sabre, Mustilli was second in foil, and kinter, 1970 epee champion, placed third in epee.

# MSC Fencers Still Going Strong

Montclair State fencers begin every meet with a cheer originated by last year's epee champion, Bruce Kinter. The saying goes, "If we don't win this match, we can't be undefeated."

Started last year, the thought has carried them to a 13-0 record last year and the 1971 North Atlantic Intercollegiate Fencing championship. With the possible exception of the women's basketball team, MSC's swashbucklers are the only ones to make it thru the season undefeated.

Altho the team is coached by Dean Cetrulo, one of the real forces behind the team is sophomore Frank Mustilli. Acting in the Dale Rodgers tradition, Mustilli not only fences for the team, but doubles as its manager.

### INTERESTS OF THE TEAM

Many times during the day, the dark Italian with the flashing smile can be seen in the athletic office, arranging dates for practices, seeing about hotel accommodations and just taking care of the interests of the fencing team.

But besides managing the team, Mustilli is the number one foil man on the squad. In the North Atlantics, Frank

ended one shy of the title. In fact, if a mix-up hadn't occurred in the pairings, MSC might have had a foil champ as well as a sabre champion.

According to Mustilli, he was told by officials that his final bout with Nick Franzi of Newark-Rutgers was not the actual title bout. Consequently, when slated opposite this year's champ Mark Volpe, also of Newark-Rutgers, he went on to defeat. As Frank puts it, "I just wasn't up for it."

### NCAA FINALS AT AIR FORCE

But Frank, along with sabre champion Dave Bryer and Kinter, should be up for what's going to happen later this month. Due to Montclair's repeat championship in the North Atlantics, the trio is traveling to the Air Force Academy for the NCAA fencing tournament.

Last year both Mustilli and Bryer went to the finals in Notre Dame. Bryer was knocked out in the first round, but Mustilli made it to the finals thru the consolation route.

This year tho, the three should score highly in the meet. After all, they have a North Atlantic champion named Dave Bryer, Bruce Kinter and his cheer, and a hustling sophomore named Frank Mustilli.

**PUTTING IT UP.** MSC's leading scorer Phil Baccarella (23) tries for a shot underneath the basket against FDU. Tonight Baccarella and the rest of the Indians go against Buffalo State College in the NCAA eastern regional semifinals.

## FDU Downs MSC In Season Finale

By Carol Sakowitz  
Sports Writer

They said it couldn't be done. Montclair State's basketball team, which just got the bid to the NCAA eastern regional finals, couldn't defeat Fairleigh Dickinson University nationally rated number one in defense. Well they were right, almost. MSC lost their last game of the regular season, 55-50, but FDU didn't romp over the Indians, as everyone expected.

The Knight's broke into the scoring column early in the first half on a basket by Ken Maxwell. The Indians countered with basket by Bruce Davis, but

FDU took the lead when Howie Weinstein hit for two.

The Knights continued to build their lead and at 5:35 left in the first half Weinstein hit on a charity throw to put FDU ahead, 21-15.

But the Indians, led by Captain Harry James, followed with 7 straight and put the score at 21-all with a little less than 4 minutes to go. James tallied 5 big points in the string. On his first shot, James' jumper made it 1000 points in his MSC career. He is the 12th Indian to score 1000, but only the fourth in a three-season career.

Both teams combined for 4 consecutive turnovers before Weinstein's hook shot put FDU temporarily ahead. Davies hit a jumper, which made a 23-23 tie hold until halftime.

Four minutes into the second part of the contest, the Indians took a 26-25 lead on an outside shot by Bob Heck. Davies made it 30-25 on a 2 charity throws and a jumper.

The Indians continued to score and finally made it 32-25 on a jumper by Davis. But the Knights took over in the next 3 minutes to make it 34-33 on a shot from the corner by Pete Tierney.

Eight plays later Shulman took advantage of a one-and-one situation and put FDU ahead 43-42.

By then the Knights could do no wrong as they went ahead 48-43 with 3:51 left. FDU slowed down the pace and forcing the Indians to foul in order to get possession.

With the clock stopped at 5 seconds Ollie Smith swished 2 foul-shots thru the basket to ice the Knights' win.

### INTRAMURAL TOURNAMENT

Applications are now available in the Athletic Office for a male intramural wrestling match and a swim meet.

The deadline for turning in either application is Monday, March 22. The wrestling match is scheduled for 7 p.m. on March 29, while the swim meet is slated for 7 p.m. on March 22.

### In the NCAA Regionals

## Buffalo Gets the Nod

By Jim Dente  
Sports Writer

Montclair State College's basketball team begins its second season this weekend when it travels to Buffalo, N.Y., for the start of the National Collegiate Athletic Association's College Division eastern regional semifinals.

The Indians are slated to take on highly touted Buffalo State College Friday night in the first game of a doubleheader. The second contest pits C.W. Post and Hartwick College of Oneonta.

**IRONICALLY,** MSC must break a 2-game losing skid in order to survive in the tourney. The Indians fell to Jersey City State, costing them an outright league championship, and then to Fairleigh Dickinson University in the season's finale to finish with 17 victories and 5 defeats.

Buffalo State College is no stranger to coach Ollie Gelston's quintet. The Bengals knocked off MSC, 81-72, in last year's version of the championship and, from all indications, are even tougher this year.

Buffalo State has captured five New York State university championships and hasn't lost in its last 24 conference battles. The Bengals copped their league title in perfect fashion at 10-0 and their overall mark was 18-3.

**THE BENGALS** are led by forward Randy Smith, who netted 38 points to defeat MSC last year. Smith, a 3-sport All-American in basketball, track, and soccer, has tallied 490 points in 21 tilts this season for an average of 23.3 per game.

His career totals show 1662 markers for 72 games played (23.1), earning him a berth on

the All-Conference team for the past two campaigns.

Here's how the two arch rivals match up:

### FORWARDS

Tod McDougald (6'3", Jr.) vs. Randy Smith (6'6", Sr.): Last year's tournament scoring leader, Smith manhandled McDougald to tally 38 points. McDougald will have to play both ends of the court tenaciously and look for help from his teammates on defense. The unheralded MSC star is recovering from a bout with bronchitis in addition to a sprained ankle.

Edge: Smith.

Phil Baccarella (6'5", Jr.) vs. Glen Henley (6'2", Sr.): Baccarella, with a 3" height advantage, must be hot from the field to pick up any offensive slack left by McDougald's defensive emphasis. Henley is very capable at getting position underneath for those all-important rebounds.

Edge: Baccarella.

### CENTERS

Joe Lyons (6'9", So.) vs. Durie Burns (6'6", Jr.): Burns can really get in the air if his 6'11" leap in the high jump is any indication. Lyons, taller by some 3", is just getting his first year of experience under his belt, but has shown he can do an ample job off the boards.

Edge: Burns.

### GUARDS

Harry James (6'1", Sr.) vs. Ken Zak (5'11", Jr.): James is the key to Indian victory hopes. The MSC captain should have little difficulty stopping the pesty Zak and will be looking for the hoop all night. Buffalo may

be forced to double-team James should he get hot early. Zak is an excellent ballhandler and driver, but isn't too accurate from outside.

Edge: James

Bruce Davis (5'10", Jr.) vs. George Holt (5'10", So.): Possibly the toughest matchup of the contest. Holt is young and only has a year of experience but is capable of holding his own. A mentally prepared Davis should be a tough customer for him.

Edge: Davis

### BENCH

Buffalo features 6'7" forward-center Jeff McClemens who can do the job should any of the big men get in foul trouble. MSC's minutemen include Tom Dux (6'4"), Don Stewart (6'4"), and Ken Waller (6'3").

Edge: MSC (strictly a homer decision)

### COACHES

Ollie Gelston vs. Dan O'Brien: There is no substitute for experience. Gelston has accumulated over 200 career wins while O'Brien has led the Bengals to an 18-3 log in his rookie year after serving as an assistant for a number of seasons.

Edge: Gelston

### PREDICTION

MSC has many edges, but Buffalo has the most crucial — a home court advantage. It should prove to be too much for MSC to cope with. Smith will break open a close game in the final 5 minutes and his club will go on to win by 12. However, Buffalo will fail to successfully defend its title, bowing to C.W. Post in the finals.

LaCampana Photo by John Lane.

**ONE-HANDING IT:** MSC's Ken Waller (12) goes in for a shot against Fairleigh Dickinson as FDU's Ken Maxwell (25) and Lee Schulman (11) look on. The Indians lost the heartbreaker, 55-50.
